

Feedback from 2/26 SIT Meeting Members

Mission

- Revise exposes

Vision

- Change self-reliant
- Add mutually supportive global citizen in front of self-reliant
- Self-reliant can mean different things to different cultures
- Replace self-reliant with purposeful, resilient
- Consider: "RHS graduates will become resilient global citizens who make their mark as positive and contributing (purposeful) members of their communities."
- Revise "Make their mark" to " Members who influence the community as positive and contributing members
- Include the term supportive
- It's great and empowering
- Add supportive in front of self-reliant
- Consider: "RHS graduates will be active participates who contribute positively to the local and greater community."
- Questions: What does it mean to be self-reliant after graduation? What is a global citizen? Are we all globally cultural citizens?

Core Values

- Add engaged global citizens to the end of teaching and learning description to provide a parallel structure

We will continue to review/revise the mission and vision statement at the April SIT meeting.
